PROFILE

Product Designer and Frontend Developer with 4+ years of experience bridging design and engineering across brand identity, UI/UX, and production interfaces. Comfortable owning the full design-to-development workflow, from early research and information architecture through to coded, shipped products. Background in Aerospace Engineering informs a systems-thinking approach to complex design problems.

EXPERIENCE

Product Designer | **Amnitech** | September 2025 – Present

- Designed the end-to-end seller experience for Nkwado, a Nigerian e-commerce and logistics platform, and built a comprehensive, scalable design system to support the product from pre-launch through production.
- Leading UX for a pre-launch startup client, translating early-stage product thinking into structured flows and production-ready design assets.

Product Designer | **Giaf Technologies** | October 2025 – December 2025 (Freelance)

- Delivered website design and full brand identity for a fashion e-commerce client, covering visual system, branding assets, and social media creative.
- Provided product management support for a government parastatal project and conducted UX research for a GovTech client, contributing design thinking across both public sector engagements.
- Designed and shipped the Giaf Technologies company website alongside client work.

Lead Creative Designer | **SirenCo** | October 2022 – November 2025

- Grew SirenCo's social media presence from 100 to 1,200 followers within two weeks of launch, a 12x increase driven by a cohesive brand identity and consistent creative output, generating hundreds of thousands of weekly views.
- Produced design and campaign assets that directly supported two ticketed community events: Galentine's (100+ attendees across 4 states) and Book & Brunch (130 attendees), both sell-outs.
- Partnered with content, community, and leadership teams to translate campaign briefs into clear, audience-focused design output.
- Coordinated design projects, feedback cycles, and team workflows to uphold quality standards and meet delivery timelines.

Lead Brand Designer | **HerBode Foundation** | August 2022 – March 2025

- Grew HerBode's social media following from 0 to 750 in two months, building the foundation's digital presence from scratch and driving hundreds of thousands of weekly views.
- Designed visual and marketing assets for a women-focused nonprofit, maintaining brand consistency across all digital channels.
- Collaborated with content and strategy teams to turn organizational messaging into engaging visual content.
